PART 1395—NONFERROUS FOUNDRY PRODUCTS

[RMFR 125, Amdt. 11]

NONFERROUS CASTINGS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 125 is amended in the following respects:

1. A new § 1395.3 (d) is added to read as follows:

(d) *Permitted increase in the maximum prices of base period castings—*(1) *Castings to which the increase may be applied.* The increase permitted by this paragraph (d) is applicable to the following copper and copper base castings:

(i) Castings the same or of the same class as those sold or contracted to be sold during the period October 1 to October 15, 1941, and

(ii) Castings the same or of the same class as those sold, contracted to be sold or delivered during the period May 11, 1942 to January 31, 1943.

(2) *Amount of increase.* The permitted increases set out below may be added to the seller's prices as determined under paragraphs (a), (b) and (c) of this § 1395.3. (Note that the price to which the addition may be made is the price after the reductions required by Amendment 5, issued May 24, 1944.) The amount of the increase varies inversely with the price to which it is to be added.

Price before addition of increase (cents per pound):	Permitted increase (cents per pound)
Less than 25-----	4.00
25.01 to 30-----	3.50
30.01 to 35-----	3.00
35.01 to 40-----	2.50
More than 40-----	2.00

(3) *Applicability of increase to adjusted prices.* The increase authorized by this paragraph (d) may not be added to any price which has been increased by an adjustment order issued under § 1395.12 of this regulation. However, a seller may, if he wishes, charge his price as determined under paragraphs (a), (b) and (c) of this section, plus the addition permitted by this paragraph (d), instead of his maximum price established by his adjustment order.

2. A new § 1395.4 (d) is added to read as follows:

(d) *Alternative method of determining maximum prices—*(1) *Castings to which this alternative method is applicable.* This pricing method may, if the seller wishes, be used for any copper or copper base casting which would otherwise be priced under this § 1395.4 if such casting was sold or delivered during either of the following periods:

(i) January 1, 1941 to September 30, 1941, inclusive, or

\* 8 FR. 1271, 2597, 2721; 9 FR. 576, 3858, 5590, 12266; 10 FR. 1976, 4100, 6044, 80112.

(ii) October 16, 1941 to May 10, 1942, inclusive.

Note: This includes all copper and copper base castings sold or delivered between January 1, 1941 and May 11, 1942, other than castings which were sold and delivered in one of the two base periods set out in § 1395.3 or castings for which maximum prices are established in § 1395.2a

(2) *How maximum price is figured.* The seller may take the most recent net price at which he sold the identical casting to the same seller during the periods January 1, 1941 to September 30, 1941 and October 16, 1941 to May 10, 1942 and he may increase this net price as follows:

Net price before addition of increase (cents per pound):	Permitted increase (cents per pound)
Less than 25-----	4.00
25.01 to 30-----	3.50
30.01 to 35-----	3.00
35.01 to 40-----	2.50
More than 40-----	2.00

The price so figured shall then be reduced by the amount set out in § 1395.3 (b) for the particular alloy. These are the reductions set out in Amendment 5.)

If the seller did not sell the identical casting to the same buyer, he shall figure his price as above except that he shall use the most recent net price at which he sold the identical casting to any other buyer of the same class during the period set out above.

This amendment shall become effective October 1, 1945.

Issued this 25th day of September 1945.

CHESTER BOWLES,  
Administrator.

AUTHORITY: §§ 8302.1 to 8302.12, inclusive, issued under Surplus Property Act of 1944, 58 Stat. 765; 50 U. S. C. App. Sup. 1611.

§ 8302.1 *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Government agency" means any executive department, independent establishment, board, bureau, commission, or other agency of the Federal Government, or any corporation wholly owned (either directly or through one or more corporations) by the United States.

(2) "Standard administrative and maintenance property" means all property from time to time listed in stock catalogues issued by the Procurement Division of the Treasury Department. These catalogues normally include, among other items, office supplies, furniture, and equipment, and maintenance operating supplies.

(3) "State and local governments" means any State, territory, or possession of the United States, the District of Columbia, and any political subdivision or instrumentality thereof.

§ 8302.2 *Scope.* This part shall apply only to disposals made by disposal agencies within the United States, its territories or possessions; *Provided*, That § 8302.7 shall apply only within the continental United States. This part shall not apply to any disposals of real property, industrial plants, shipyards and facilities, property designated in classes (1) to (8), inclusive, of section 19 of the Surplus Property Act of 1944, or surplus vessels which the Maritime Commission determines to be merchant vessels or capable of conversion to merchant use.

§ 8302.3 *Applicability of regulations and directives of War Production Board, Office of Price Administration, and Secretary of Agriculture; and disposals which may be exempted from this part.*—(a) *Applicability of regulations and directives of War Production Board, Office of Price Administration, and Secretary of Agriculture.* All disposals hereunder shall be subject to applicable regulations and directives of the War Production Board, the Office of Price Administration, and the Secretary of Agriculture.

(b) *Disposals which may be exempted from this part.* Subject to the provisions of paragraph (a) of this section, disposal agencies may dispose of surplus property without regard for any provisions of this part:

(1) To supply the needs of the armed forces;

(2) When the property is of such nature or in such situation that its immediate disposal is necessary to prevent its deterioration, spoilage, or serious loss or damage, or when its disposal is necessary to relieve critical storage requirements;

(3) When upon application to the Surplus Property Board by a disposal agency, the Board shall find that it is impracticable or uneconomical to require the disposal of designated property according to the provisions of this part;

(4) When the condition of a surplus agricultural commodity or food is such that it is not usable in its present form without reprocessing or reconditioning;

(5) When the cost (estimated if not known) of all substantially similar items of such property in the possession of the disposal agency at any one location at any one time does not exceed \$300.

§ 8302.4 *Information about available property*—(a) *Availability of records of surplus property; liaison officers.* Disposal agencies shall establish procedures to insure that designated representatives or procurement officers of Government agencies and State and local governments shall have access to the information on the property records of the disposal agencies, and shall upon request from time to time inform such representatives or procurement officers about surplus property for which declarations have been received or are anticipated. In order to avoid the confusion which would result from making limited copies of records available to an unlimited number of persons, a disposal agency may in its discretion appoint members of its staff to serve as liaison officers at each disposal point who shall secure for Government agencies and State and local governments the information desired from such records. It shall be the responsibility of Government agencies, in order to avoid making purchases through commercial channels, continuously to consult such records and to determine whether their requirements for all items of property, except standard administrative and maintenance property subject to the provisions of § 8302.7, can be satisfied out of surplus property in the hands of the disposal agencies.

(b) *Notice of offering.* Disposal agencies shall adopt procedures which will allow Government agencies and State and local governments to receive notices of what surplus property is available or offered for sale within the area in which the offering is made. Government agencies and State and local governments shall have the right upon request to be put on mailing lists for notices in all cases where such lists are used to offer property for disposal, including mailing lists otherwise reserved to special classes of buyers, unless the disposal agency shall find that the giving of such notices

to Government agencies and State and local governments shall for any particular type of property become impracticable, unduly expensive to the Government, or unreasonably burdensome on the facilities of the disposal agency. When public advertising is used as the method of offering, no other notice need be given to Government agencies and State and local governments.

§ 8302.5 *Reservations of surplus property for Government agencies and State and local governments.* (a) Each disposal agency, based upon experience and demonstrated demand, shall estimate the quantity of each item of surplus property which it is necessary to hold in reserve in order to provide an adequate supply thereof to satisfy the probable needs for such item of Government agencies and State and local governments. Such quantities shall be reviewed and adjusted periodically by the disposal agency in the light of the changing requirements of Government agencies and State and local governments and the areas in which such requirements exist. There need be no earmarking of specific property, but the quantities of surplus property so estimated shall be reserved for exclusive disposal to Government agencies and State and local governments, and any property in excess of such reserved quantities may be promptly disposed of to others.

(b) In order to assist the disposal agencies to reserve quantities of surplus property adequate to satisfy the needs of Government agencies, including the needs of Smaller War Plants Corporation for small business or veterans in accordance with the Surplus Property Act of 1944 and applicable regulations of the Surplus Property Board, Smaller War Plants Corporation shall advise the disposal agencies from time to time of the quantities and kinds of surplus property which it needs or may need for such purposes, and the disposal agency shall thereupon take such steps as may be necessary to reserve an adequate supply with which to fill such needs. To the end of rapidly adjusting the reserve so established, prospective purchasers shall have the right to inspect the property they wish to buy.

§ 8302.6 *Transfers to Government agencies.* (a) Subject to the provisions of § 8302.7, disposal agencies shall transfer to a Government agency on its order surplus property in quantities not smaller than the smallest lots consistent with commercial practice and at the fair value of such property as provided in § 8302.9. Disposal agencies shall make such transfer of surplus property to a Government agency without reimbursement or transfer of funds whenever a transfer on such terms by the owning agency by which such property was declared surplus would be authorized by law to be made to the agency desiring such property. Government agencies may place orders with a disposal agency for surplus property at any time, and such orders shall be filled from property held in reserve as provided in § 8302.5, or, if not so held therein, from any other available surplus property. If no such property is available at the time of receipt of the order, the disposal agency

shall promptly notify the Government agency, and thereupon such order shall be deemed to lapse. Property already advertised for public competitive bids or for sale at auction or for immediate purchase at a fixed time and property specifically selected by a prospective purchaser shall not be considered available.

(b) Disposals to Government agencies under this section shall be accorded priority over disposals to State and local governments under § 8302.8. Whenever two or more Government agencies shall claim the same item or items of surplus property, the disposal agency shall fill the orders in the sequence in which they have been received.

§ 8302.7 *Transfers of surplus standard administrative and maintenance property to the Treasury Department, and acquisition of such property by Government agencies.* (a) In order to facilitate the transfer of surplus property from one Government agency to other Government agencies for their use, the Treasury Department may acquire or order earmarked for its future acquisition from the disposal agencies such quantities of surplus standard administrative and maintenance property as the Treasury Department shall estimate may be needed to satisfy the needs and requirements for such property of all Government agencies within the continental United States, other than the War Department and the Navy Department. The periods for which such property may be earmarked shall be established by the disposal agency based upon the estimates of the Treasury Department and the requirements of such Government agencies pursuant to such estimates. Such Government agencies shall cooperate with the Treasury Department in compiling such estimates and shall provide the Treasury Department with such information concerning their requirements as it may need in order to promote the fullest utilization of surplus property.

(b) Disposal agencies shall transfer surplus standard administrative and maintenance property to the Treasury Department in accordance with the provisions of § 8302.6 and at the fair value of the property less an amount which reflects the estimated expenses to be incurred by the Treasury Department in making distribution to Government agencies, and the Treasury Department shall promptly upon such transfer take possession and assume responsibility for the care, handling, and disposition of such property.

(c) It shall be the responsibility of all such Government agencies, in order to avoid making purchases of such property through commercial channels when such property is available from surplus, continuously to consult the stock catalogues issued by the Procurement Division of the Treasury Department.

(d) Except in cases where transfers may be made without reimbursement or transfer of funds, no Government agency other than the War Department and the Navy Department shall within the continental United States acquire by direct transfer from a disposal agency any surplus standard administrative or main-

tenance property which is offered for disposal by the Treasury Department and immediately available for acquisition by such Government agency; *Provided*, That Smaller War Plants Corporation shall be entitled to acquire any such property from a disposal agency for resale in accordance with the Surplus Property Act of 1944 and applicable regulations of the Surplus Property Board.

§ 8302.8 *Disposals to State and local governments.* (a) Disposal agencies shall dispose of surplus property to State and local governments in quantities not smaller than the smallest lots consistent with commercial practice and at the fair value of such property as provided in § 8302.9. State and local governments may place orders with a disposal agency at any time, and such orders shall be filled from property held in reserve as provided in § 8302.5, or, if not so held therein, from other available surplus property. If no such property is available at the time of receipt of the order, the disposal agency shall promptly notify the claimant, and thereupon such order shall be deemed to lapse. Property already advertised for public competitive bids or for sale at auction or for immediate purchase at a fixed time and property specifically selected by a prospective purchaser shall not be considered available.

(b) Disposals to State and local governments shall be subordinate to the priority of Government agencies under § 8302.6. Whenever two or more State and local governments shall claim the same item or items of surplus property, the disposal agency shall fill the orders in the sequence in which they have been received.

(c) At the request of a disposal agency, any State or local government shall submit a certificate made by a responsible officer setting forth that the property is sought for the use of a State or local government as defined in § 8302.1 (b) (3).

§ 8302.9 *Fair value.* Disposal agencies shall fix the fair value at which property disposed of under §§ 8302.5, 8302.6, and 8302.8 shall be acquired by Government agencies and State and local governments. Such fair value shall not be greater than the lowest price which is offered to any trade level at the time of acquisition by the Government agency or State or local government.

§ 8302.10 *Right of Government agencies and State and local governments to acquire property in competition with others.* In addition to acquiring property under §§ 8302.5, 8302.6, and 8302.8, Government agencies and State and local governments shall be entitled to submit offers whenever surplus property is otherwise offered for sale, without regard for the location of the property, but shall not be entitled to priority and shall acquire such property on the same terms and conditions as others.

§ 8302.11 *Regulations by disposal agencies to be reported to the Surplus Property Board.* Each disposal agency shall file with the Surplus Property Board copies of all regulations, orders, and instructions of general applicability which they may issue in furtherance of

the provisions, or any of them, of this part.

§ 8302.12 *Amendment or repeal.* This part, and any order issued under it, shall be subject to amendment or repeal by the Board by any regulation, order, or other action of the Board duly published in the Federal Register.

This revision of this part shall become effective on September 21, 1945.

§ 8311.1 *Definitions.*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Disposition" means disposal to a person other than a Government agency.

(2) "Government agency" means any executive department, independent establishment, board, bureau, commission or other agency of the Federal Government, or any corporation wholly owned (either directly or through one or more corporations) by the United States.

(3) "Transfer" means disposal to a Government agency.

§ 8311.2 *Scope.* This part shall apply to transfers and dispositions within the continental United States, its territories and possessions unless otherwise expressly indicated. Revised Special Order 13, July 31, 1945, (10 F.R. 9697) and Special Order 16, July 31, 1945, (10 F.R. 9697) are hereby superseded and rescinded as of the effective date of this part.

§ 8311.3 *Proceeds to be covered into Treasury.* All proceeds from transfer or disposition of property under the act (including rents, interest, other proceeds) shall be covered into the Treasury as miscellaneous receipts, except as provided in subsections (b), (c) and (d) of section 30 of the act. Sums deducted from gross proceeds under section 30 (b) of the act, to determine net proceeds shall be covered into the Treasury as miscellaneous receipts. Under no circumstances may an agency retain all or any part of the proceeds from any trans-

fer or disposition under the act as reimbursement for the cost or expense of care, handling, disposition or transfer of surplus property.

§ 8311.4 *Net proceeds.* Unless the Board directs otherwise, no disposal agency shall, pursuant to section 30 (b) of the act, credit to a reimbursable fund or appropriation of any owning agency, or pay to any owning agency, the net proceeds of disposition or transfer of property arising from transactions completed during any quarter except upon the basis of computation of net proceeds determined by the Board at the end of each respective quarter: *Provided, however,* That such credit or payment may be made with regard to transactions completed prior to July 1, 1945, if the basis for computing net proceeds had theretofore been approved by the Board. When net proceeds are to be credited or repaid to an interested agency but because the property is co-mingled with other property it is impracticable or impossible to determine the applicable gross proceeds, disposal agencies may make such payment or credit from the proceeds of the transfers or dispositions of similar property transferred or disposed of directly after the receipt of the surplus declaration.

§ 8311.5 *Refunds to purchasers.* No disposal agency shall withhold from miscellaneous receipts of the Treasury any amount from the proceeds of dispositions for the purpose of making appropriate refunds to purchasers pursuant to section 30 (c) of the act unless such amount is deposited in a special account with the Treasurer of the United States and no such deposit shall be made without authorization from the Board. To receive such authorizations, disposal agencies shall apply to the Board, recommending the amount which the agency deems necessary to deposit in such account in order to permit appropriate refunds to purchasers.

§ 8311.6 *Expenses; certain expenses excepted.* Government agencies shall apply to the Board as provided herein for allocation or reimbursement of funds to meet expenses necessary to enable disposal agencies to carry out the disposal functions vested in them by or pursuant to the act or necessary to render such special advisory services as the Board may designate: *Provided,* That, as long as any applicable appropriation act so requires, no such allocation or reimbursement will be made for expenses incident to the care, handling, transfer or other disposition of surplus property which a disposal agency had under its control as an owning agency when the property was declared surplus, and nothing in this part shall be deemed to refer to such expenses.

§ 8311.7 *Estimate of expenses.* On or before the 15th day of the last month of each quarter, Government agencies shall submit to the Board an estimate of their disposal and advisory expenses for the succeeding quarter, together with appropriate statements explaining the basis upon which the estimate was determined. Such expenses shall be presented by program and by objective class of expenditure and shall be directly re-

lated to the disposal or advisory services to be rendered. The Board will expect that in the preparation of estimates of expenses, all agencies will explore all available means to reduce expenditures to a minimum. Each agency in preparing estimates shall absorb indirect administrative or overhead expense to the fullest extent possible within the limits of existing appropriations or enabling statutes. Estimates of fiscal year expenses shall be submitted by Government agencies at such times as necessary to meet regular or special hearings before the Bureau of the Budget and the Congress.

§ 8311.8 *Statement of expenses.* On or before the 15th day of each month, Government agencies shall submit to the Board a statement of their expenditures and obligations for such disposal and advisory expenses made during the preceding month.

§ 8311.9 *Submission prior to commitment.* Whenever substantial expenses are involved, particularly contracts involving commitments in excess of \$100,000, Government agencies may request the Board for determination of the propriety of such expenses prior to committing themselves to such expenses.

§ 8311.10 *Allocations and reimbursement.* Within the terms and limits of its appropriations, the Board will, at the beginning of each quarter, allocate funds or authorize expenditures subject to reimbursement, as the case may be, in such amounts determined to be necessary for proper disposal and advisory expenses to cover that quarter. Reimbursement will be made on the basis of vouchers submitted with such supporting detail as the Board may require. Government agencies shall make such reports as the Board may require and will cooperate with the Board in such studies as it may conduct to determine effective and economical use of the funds allocated or authorized for reimbursement.

§ 8311.11 *Regulations by agencies to be reported to the Board.* Each Government agency shall file with the Board copies of all regulations, orders, and instructions of general applicability which it may issue in furtherance of the provisions, or any of them, of this part.

§ 8311.12 *Records and reports.* Government agencies shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of the act. Reports shall be prepared and filed with the Board in such manner as may be specified by order issued under this part, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1944. Such orders may require reports from disposal agencies acting as such outside the continental United States, its territories and possessions.

This regulation shall become effective September 23, 1945.

### FEDERAL POWER COMMISSION.

[Docket No. G-575]

TENNESSEE NATURAL GAS LINES, INC.  
NOTICE OF AMENDED AND SUPPLEMENTAL APPLICATION

SEPTEMBER 24, 1945.

Notice is hereby given that on September 18, 1945, Tennessee Natural Gas Lines, Inc. (Applicant), a Delaware corporation, and its successor in interest, Tennessee Natural Gas Lines, Inc., a Tennessee corporation, having their principal place of business at Chattanooga, Tennessee, filed with the Federal Power Commission an amended and supplemental application for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of approximately 14 miles of 8 $\frac{1}{4}$ -inch O. D. transmission pipeline extending from a point of interconnection with the main 24-inch transmission pipeline of Tennessee Gas and Transmission Company near the village of Westernia, Cheatham County, Tennessee, and thence extending in a southeasterly direction to a city gate interconnection with the facilities of Nashville Gas & Heating Company, near the village of Bordeaux, Davidson County, Tennessee.

On August 30, 1944, Tennessee Natural Gas Lines, Inc. (Delaware corporation), filed an application with the Commission (Docket No. G-575) for a certificate of public convenience and necessity to authorize the construction and operation of approximately 17 miles of 10 $\frac{3}{4}$ -inch transmission pipeline beginning at a proposed point of connection with the pipeline of Tennessee Gas and Transmission Company near Ashland City, Tennessee, and extending in a southeasterly direction to Nashville, Tennessee. Subsequent to the filing of this latter application, which is amended by the instant application, Applicant has reincorporated under the laws of the State of Tennessee and the assets, rights and privileges transferred to the new corporation.

According to the application, the Nashville Gas & Heating Company (Nashville Company), Applicant's proposed city gate customer, is presently engaged in the production, distribution and sale of artificial or manufactured gas, having a 200 B. t. u. heat content which is enriched with oil to a heat content of about 530 B. t. u. The Nashville Company distributes such gas in Nashville, Tennessee, and proposes to convert its system to the distribution and sale of straight natural

gas in Nashville in the spring or summer of 1946 and then use its facilities for the production of manufactured gas to augment the supply of natural gas during an emergency. It is the intention of Applicant to sell approximately 2,000 mcf of gas per day to the Nashville Company for enriching purposes in place of oil until the conversion to straight natural gas occurs. After such conversion, Applicant states that its natural gas consumption will increase and that its total annual sales the fifth year after such conversion will be about 1,695,000 mcf.

The total over-all capital cost of the proposed facilities is estimated at \$454,250.00. It is proposed to finance the costs of such construction through the issuance of bonds and preferred and common stock.

The application also recites that the facilities of the Nashville Company are inadequate to render proper service during the coming winter, thus causing economic and physical handicap to persons, firms and industries situated within the area of Nashville, Tennessee.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 10th day of October, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

## OFFICE OF PRICE ADMINISTRATION.

[MPR 188, Rev. Order 43 Under 2d Rev. Order A-3]

## COMMERCIAL FURNITURE CO.

## ADJUSTMENT OF MAXIMUM PRICES

Order No. 43 under Second Revised Order No. A-3 under § 1499.159b of Maximum Price Regulation No. 188 is revised to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register; and pursuant to Second Revised Order No. A-3 under § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's maximum prices.* Commercial Furniture Company, of 2739 West Chicago Avenue, Chicago, Illinois, may sell and deliver the wood office furniture which it manufactures, and which is described in the manufacturer's application dated July 11, 1944, at prices no higher than its maximum prices in effect immediately prior to October 25, 1944 plus an adjustment charge of 17.4 percent of each such maximum price.

On all sales other than sales to ultimate consumers, the adjustment charge provided herein may be made and collected only if stated separately on each invoice.

The maximum prices of the manufacturer, as adjusted, are subject to its customary terms, discounts, allowances and other price differentials in effect during March, 1942 on sales to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this revised order and resells it in substantially the same form, may collect from his customer, in addition to his properly established maximum price in effect immediately before this revised order was issued, an adjustment charge in the same amount as the adjustment charge herein authorized and which he pays to his supplier. If he did not have a maximum price in effect for the article at the time this revised order was issued, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable regulation. If the applicable regulation requires the maximum resale price to be computed on the basis of cost, the reseller must find his maximum resale price (not including the permitted adjustment charge) by using as cost his invoice cost less any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to the ultimate consumer this adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted price is subject to each seller's customary terms, discounts, and allowances on sales of the same or similar articles.

(c) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale, showing a price adjusted in ac-

cordance with the terms of this revised order, the manufacturer shall notify the purchaser in writing of the method established in paragraph (b) of this revised order for determining adjusted maximum prices for resale of the articles covered by this revised order. This notice may be given in any convenient form.

(d) *Statements to be submitted to the Office of Price Administration.* After the effective date of this revised order, Commercial Furniture Company shall submit to the Office of Price Administration, Washington, D. C., a detailed quarterly profit and loss statement, within thirty days after the close of each quarter.

(e) This revised order may be revoked or amended by the Price Administrator at any time.

(f) This revised order shall become effective on the 25th day of September, 1945.

GENERAL MOTORS CORP.

AUTHORIZATION OF MAXIMUM PRICES

Revised Order No. 444 Under Revised Maximum Price Regulation 136. Ma-

chines, parts and industrial equipment. General Motors Corporation; Docket No. 6063-136.25a-277.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 21 of Revised Maximum Price Regulation 136, *It is ordered:*

Order No. 444 under Revised Maximum Price Regulation 136, is redesignated Revised Order No. 444, and is revised and amended to read as follows:

(a) *Chevrolet Motor Division.* General Motors Corporation, General Motors Building, Detroit 2, Michigan, is authorized to sell to resellers its Model 3104 CCBX,  $\frac{1}{2}$  ton commercial chassis with cab, pickup box, 115" wheelbase, 1942 standard equipment and specifications, and synthetic tires of base tire size instead of natural rubber tires, at a price not to exceed a net wholesale price of \$567, (subject to the discounts and allowances in effect on March 31, 1942, to the applicable class of resellers). The manufacturer is authorized to determine maximum prices for sales to resellers of the other truck models within its  $\frac{1}{2}$  ton commercial truck line, and of the truck models within its  $\frac{3}{4}$  ton commercial truck line, by adjusting the maximum price in effect on March 31, 1942, of each such model so that the same dollar differential shall exist between that adjusted price and the adjusted price of the Model 3104 commercial chassis as existed between March 31, 1942 prices of such models. The following applicable charges may be added to these adjusted prices.

(1) *Charges.* (i) A charge for extra, special and optional equipment which shall not exceed the list or established price in effect on March 31, 1942 (less the discount in effect on that date) for such equipment when sold as original equipment.

(ii) A charge to include Federal tires-weight and other Federal excise taxes computed in accordance with the seller's method in effect on March 31, 1942.

(iii) A charge for freight based on freight rates from Flint, Michigan, to place of delivery.

(iv) A charge to cover seller's expense for unloading, handling and delivery, gas and oil, not to exceed \$5.00, where the model is shipped to a company-owned zone sales location.

(v) A charge to cover seller's expense during March, April and May 1945 for storage in non-company owned storage locations, not to exceed \$7.50 for the first month's storage and \$5.00 for each other month's storage during this three months' period.

(b) *Chevrolet Motor Division.* General Motors Corporation, is authorized to sell to the United States its Model 3104 CCBX,  $\frac{1}{2}$  ton commercial chassis with cab, pickup box, 115" wheelbase, 1942 standard equipment and specifications, and synthetic tires of base tire size instead of natural rubber tires, at a price not to exceed the net wholesale price of \$575 (subject to the discounts and allowances in effect on March 31, 1942). The Chevrolet Motor Division is

authorized to determine maximum prices for sales to the United States of all other truck models in its  $\frac{1}{2}$  ton commercial truck line and of the models in its  $\frac{3}{4}$  ton commercial truck line, by adjusting the maximum price in effect on March 31, 1942, to the United States of each such model so that the same dollar differential shall exist between that adjusted price and the adjusted price of the Model 3104 commercial chassis as existed between the March 31, 1942 prices of such models for sales to the United States. The applicable charges in subparagraph (1) of paragraph (a) may be added to these adjusted prices.

(c) A reseller of Chevrolet motor trucks may sell, delivered at place of business, the Model 3104 Chevrolet commercial truck chassis described in paragraph (a) at a price not to exceed the retail list price of \$772 (subject to the discounts and allowances in effect on March 31, 1942, to the applicable class of purchaser). The maximum prices for all other truck chassis models in the Chevrolet  $\frac{1}{2}$  ton commercial truck line and truck models in the Chevrolet  $\frac{3}{4}$  ton commercial truck line shall be the respective retail list prices which shall be determined by the Chevrolet Division, General Motors Corporation, in accordance with paragraph (d) below (subject to the discounts and allowances in effect on March 31, 1942, to the applicable class of purchaser). To the retail list prices authorized by this paragraph the following applicable charges may be added:

(1) *Charges.* (i) A charge for extra, special and optional equipment which shall not exceed the list or established price in effect on March 31, 1942, (less the discount in effect on that date) for such equipment when sold as original equipment.

(ii) A charge for transportation which shall not exceed the charge the General Motors Corporation would make for the transportation of the truck to the place of business of the reseller.

(iii) The reseller's charge for handling and delivery in effect on March 31, 1942, and in addition, the storage charges he has to pay under item (v) of paragraph (a) (1).

(iv) A charge to include Federal, State and local taxes on his purchase, and sale, or delivery, of the applicable truck model, computed in accordance with the reseller's method in effect on March 31, 1942.

(v) The dollar amount of all other charges which the reseller had in effect on March 31, 1942, to the applicable class of purchasers.

(d) The Chevrolet Motor Division, General Motors Corporation, shall determine retail list prices for all truck models for which it has maximum prices under paragraph (a). The retail list prices established by the Chevrolet Motor Division shall reflect the same differential between the net wholesale prices authorized in paragraph (a) and the respective retail list prices as existed on March 31, 1942, between the net wholesale prices and the respective suggested retail list prices of the truck models.

(e) The Chevrolet Motor Division, General Motors Corporation, shall furnish the Office of Price Administration

with a report of each of the retail list prices it determines in accordance with paragraph (d) of this revised order, not later than five days from the date of the first sale of each model.

(f) A reseller that cannot establish a price under paragraph (c) because it was not in business on March 31, 1942, shall determine its maximum price by adding to the retail list price which a reseller is permitted to charge in accordance with paragraph (c) and (d) the following applicable charges:

(1) *Charges.* (i) The original equipment retail charge that Chevrolet Motor Division, General Motors Corporation, suggested on March 31, 1942, be made by resellers for extra, special or optional equipment attached to the truck as original equipment.

(ii) A charge to cover transportation which shall not exceed the charge the General Motors Corporation would make for the transportation of the truck to the place of business of the reseller;

(iii) A charge equal to the charge made to the reseller by the Chevrolet Motor Division, General Motors Corporation, in accordance with its March 31, 1942, method, to cover Federal tires-weight and other Federal excise taxes;

(iv) A charge equal to the reseller's expense for payment of State and local taxes on the purchase, sale or delivery of the truck;

(v) A charge equal to reseller's actual expense for handling and delivery, and in addition, the storage charges he has to pay under item (v) of paragraph (a) (1).

(g) A reseller of Chevrolet trucks in any of the territories or possessions of the United States is authorized to sell each of the trucks referred to in paragraph (c) at a price not to exceed the maximum price established in paragraph (c) or (f), whichever is applicable, to which it may add a sum equal to the expense incurred by or charged to it, for payment of territorial and insular taxes on the purchase, sale or introduction of the truck; export premiums; boxing and crating for export purposes; marine and war risk insurance; and landing, wharfage, and terminal operations.

(h) All requests not granted in this revised order are denied.

(j) This revised order may be amended or revoked by the Administrator at any time.

NOTE: Where the manufacturer has an established price in accordance with section 8 of Revised Maximum Price Regulation 136, which is different than a price permitted under paragraph (a) because of a substantial change in design, specifications or equipment of the truck, the reseller may add to its price under paragraphs (c), (f) or (g) any increase in price to it over the price it would otherwise pay under paragraph (a), plus its customary markup on such a cost increase, but in the case of a decrease in the price under paragraph (a) the reseller must reduce its price under paragraphs (c), (f) or (g) by the amount of the decrease and its customary markup on such an amount.

This revised order shall be effective September 24, 1945.

Issued this 24th day of September 1945.

CHESTER BOWLES,  
Administrator.

UNITED LIGHT AND POWER CO. ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of September A. D. 1945.

In the matter of The United Light and Power Company, The United Light and Railways Company, American Light & Traction Company, Continental Gas & Electric Corporation, United American Company, and Iowa-Nebraska Light and Power Company, Respondents, File No. 59-17; The United Light and Power Company and its subsidiary companies, respondents, File No. 59-11; The United Light and Power Company, Applicant, File No. 54-25; Application No. 25.

The Commission having previously, by order dated August 5, 1941, under section 11 (b) (1) of the Public Utility Holding Company Act of 1935, ordered, among other things, that The United Light and Railways Company ("Railways"), a registered holding company, shall eliminate from its holding company system all its interest (whether direct or indirect) in the subsidiaries of American Light & Traction Company ("American Light"), also a registered holding company and a subsidiary of Railways, and that Railways and its subsidiary, Continental Gas & Electric Corporation ("Continental"), also a registered holding company, shall dispose of their direct or indirect interest in Columbus and Southern Ohio Electric Company ("Columbus");

Railways and American Light having heretofore filed a plan, in connection with the liquidation and dissolution of American Light, providing, among other things, for the distribution to its common stockholders of the portfolio securities of American Light remaining after the discharge of the claims of its preferred stock; the Commission having in its Memorandum Opinion issued on June 2, 1945 concluded that the most appropriate plan for accomplishing compliance with its order of August 5, 1941 would require, among other things, that Railways promptly dispose of its proportionate interest in the securities of the subsidiaries of American Light, attended

by the application of such securities or the proceeds from the sale thereof to reduce senior securities of the companies in the Railways' system; and the Commission having in said Memorandum Opinion indicated that Railways and Continental should act promptly to dispose of their interest in Columbus as required by the Commission's order of August 5, 1941 and that the proceeds of such disposition must be applied to decrease Continental's outstanding senior securities;

Notice is hereby given that Railways and Continental have filed with this Commission applications and declarations, designated as "Application No. 25," pursuant to sections 11 (b) (1), 11 (b) (2) and 11 (e) of the act and any other applicable sections of the act or rules thereunder with respect to certain transactions the purpose of which, it is stated, is to accomplish (1) the disposition by Railways of the securities it will receive upon the liquidation of American Light, (2) the disposition by Continental of its investment in Columbus and (3) the improvement and simplification of the capital structures of Railways and Continental by means of the discharge of the claims of the outstanding debentures and preferred stock of Railways and the outstanding preferred stock and a portion or all of the outstanding debentures of Continental by the payment to the holders thereof of an amount of cash equivalent to the principal amount or par value of such securities plus accrued interest or dividends but without the payment of any premium.

All interested persons are referred to said document which is on file at the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

**I. Introductory.** a. The capitalization of Railways consists of the following securities held by the general public:

Security:	Amount outstanding
5½ percent Debentures due 1952 .....	\$23,837,000
Prior preferred stock, cumulative, par value \$100 per share:	Shares
7 per cent series .....	37,993
6.36 percent series .....	52,329
6 percent series .....	99,516
Common stock (\$7 par value) ..	3,173,838

b. Railways' debentures are subject to redemption, in whole or in part, at the option of Railways at any time after 90 days' published notice, at 102% of the principal amount thereof, plus accrued interest to the date of redemption.

c. Railways' prior preferred stock is subject to redemption, in whole or in part, at the option of Railways on 60 days' notice at the par value thereof plus accumulated dividends to the date of redemption, plus a premium of 5% of the par value for the 7% and 6.36% series and a premium of 1% of the par value for the 6% series. The application states that upon any liquidation, whether through insolvency or the termination of corporate existence or otherwise, the prior preferred stockholders are entitled to receive the par value of their stock,

plus accumulated dividends, in preference to the common stock.

d. In addition to its outstanding common stock, 99.75% of which is held by Railways, the capitalization of Continental consists of the following securities held by the general public and by Railways:

Security	Amount outstanding	Held by public	Held by railways
5 percent debentures due 1954 .....	\$40,400,000	\$2,400,000	-----
7 percent cumulative prior preferred stock (\$100 par value) shares ..	183,570	181,910	77,917

e. Continental's debentures are subject to redemption, in whole or in part, at the option of Continental on any interest payment date after 60 days' published notice, at 101½% of the principal amount thereof plus accrued interest to the date of redemption.

f. Continental's prior preference stock is subject to redemption on any quarterly dividend payment date, in whole or in part, after 90 days' published notice, at \$110 per share, plus accrued dividends to the date of redemption. Continental's Certificate of Incorporation provides that upon any liquidation, dissolution or winding-up of the corporation, the holders of prior preference stock shall be entitled to receive \$110 per share, plus accrued dividends and that all remaining assets shall be distributed to the common stockholders.

g. Railways and Continental state that the simplification of the capital structures thereof is necessary to meet the requirements of section 11 (b) (2) of the act and that the payment or other elimination of all or of a very substantial portion of the senior securities of those companies is necessary to effect this simplification.

**II. The plan.** 1. Railways proposes to discharge the claims of its outstanding debentures by the payment in cash of the full principal amount thereof, plus interest accrued and unpaid thereon on the 90th day following the date of published notice of such payment, but without premium, and to discharge the claims of its outstanding preferred stock by the payment in cash of an amount equal to the par value of such preferred stock, namely \$100 per share, plus accrued and unpaid dividends thereon on the 60th day following the date the notice of payment is first published. Interest shall cease to accrue on the debentures from and after the 90th day following the date that notice of payment pursuant to the plan is first published and dividends on Railways' prior preferred stock shall cease to accrue on the 60th day following the publication of notice of payment.

2. In order to effect the discharge of the claims of its outstanding debentures and preferred stock, Railways shall deposit in trust with a depository cash in an amount equal to the principal amount of all outstanding debentures plus accrued and unpaid interest and to the par value of Railways' outstanding prior pre-

ferred stock, plus accrued and unpaid dividends. Railways shall also deposit with the depository in escrow cash in an amount equal to 2% of the principal amount of all Railways' outstanding debentures and shall also deposit in escrow an amount of cash equal to 5% of the par value of all shares of 6.36% and 7% prior preferred stock of Railways and to 1% of all outstanding shares of 6% prior preferred stock of Railways. The cash so deposited in escrow shall be held as a separate trust fund pending determination by the Commission and by the courts as to whether the holders of debentures and of preferred stock of railways are entitled to any amount additional to that proposed to be paid under the plan.

3. Railways, upon the receipt of the shares of common stock of The Detroit Edison Company, Michigan Consolidated Gas Company, Milwaukee Gas Light Company and Madison Gas and Electric Company in connection with the liquidation of American Light, shall sell the common stock of The Detroit Edison Company through the facilities of the New York Stock Exchange and shall sell the remainder of the securities so received to the public through underwriters to be selected by competitive bidding. The net proceeds from the above sale of securities are to be used to pay off Railways' outstanding debentures and prior preferred stock as hereinabove described. (Application No. 25 indicates that the sale of common stock of the above-mentioned companies will be the subject matter of supplemental applications.)

4. Pending receipt by Railways of the common stock of the subsidiaries of American Light and the sale of such securities, Railways proposes to borrow \$25,000,000 from commercial banks, the loans to be evidenced by unsecured promissory notes maturing five years after date, bearing interest on the unpaid principal at the rate of 2% per annum and payable in whole or in part at any time without premium out of the proceeds from the sale of securities to be received by Railways from American Light. Railways proposes to use \$24,313,740 of funds borrowed to make the deposits of cash required to pay and protect the interests of debenture holders, as described in paragraphs 1 and 2 hereinabove.

5. Continental proposes to discharge the claims of its outstanding preferred stock held by the public by the payment of cash in an amount equal to the par value, \$100 per share, plus an amount equal to the dividends which will be accrued and unpaid thereon on the 90th day following the date of the first publication of notice of payment at which time dividends shall cease to accrue on the preferred stock. In addition to the cash which it will deposit with a depository for the aforesaid payment, Continental will deposit in escrow cash in an amount equal to 10% of the par value of all prior preference stock of Continental outstanding in the hands of the public to be held as a separate trust fund pending determination by the Commis-

sion and by the courts as to whether any amount additional to that proposed to be paid under the plan should be paid to preferred stockholders.

6. In connection with the elimination of Continental's outstanding preferred stock, Continental will issue to Railways approximately 192,328 shares of its authorized but unissued common stock in exchange for 77,317 shares of Continental's prior preference stock held by Railways which, upon transfer to Continental will be cancelled and Continental will also issue to Railways approximately 225,643 shares of additional common stock for \$9,025,714 in cash.

7. Continental shall sell its investment in the common stock of Columbus for cash, such sale to be made either to another holding company system or to the public through underwriters to be selected by competitive bidding. (Such sale, it is stated, will be the subject matter of a supplemental application.)

8. Continental shall apply the net proceeds received from the sale of the common stock of Columbus to the pro rata partial payment of its outstanding debentures and, in addition, Continental may request (by amendment or supplemental application) approval to borrow funds in order to provide for the full payment of its outstanding debentures. Each debenture holder will be entitled to receive cash equal to the same percentage of the principal amount of his debenture as the deposit made bears to the total outstanding debentures, plus accrued interest, and a new debenture having a principal amount equal to the difference, if any, between the principal amount of his surrendered debenture and the cash payment received on the principal. The new debentures would have the same interest rate, maturity date, and other terms and conditions as are applicable to the presently outstanding debentures. In addition to the deposit of the net proceeds from the sale of Columbus together with other cash, if any, for the foregoing purpose, there shall be deposited in escrow an amount equal to  $1\frac{1}{2}\%$  of that portion of the debentures which is to be paid in cash. The cash so deposited in escrow shall be held as a separate trust fund pending determination by the Commission and by the courts as to whether the holders of Continental's debentures are entitled to any amount additional to the principal amount of the debentures plus accrued interest as proposed to be paid under the plan.

Railways and Continental request the Commission to enter an order or orders under section 11 (e) of the act, and such other sections as may be applicable, (a) finding the plan necessary to effectuate the provisions of section 11 (b) and fair and equitable to the persons affected by the plan; (b) determining the amounts which the debenture holders and preferred stockholders of Railways and Continental are entitled to receive upon payment of their securities as provided in the plan; (c) approving the plan and authorizing and directing Continental and Railways to consummate the plan and to carry out the various transactions provided for therein

or contemplated thereby; (d) exempting the sale by Railways of the shares of common stock of The Detroit Edison Company to be received by it upon the liquidation of American Light from the competitive bidding requirements of Rule U-50 and authorizing the sale of such shares by Railways on or through the facilities of the New York Stock Exchange; and (e) authorizing Railways to borrow \$25,000,000 from commercial banks and to issue promissory notes to evidence the funds so borrowed;

Railways and Continental request that the Commission's order or orders conform to the requirements of sections 371 and 1808 of the Internal Revenue Code;

Railways and Continental request the Commission pursuant to section 11 (e) of the act to apply to an appropriate Federal District Court to enforce and carry out the terms and provisions of the plan. If the court shall approve the plan as fair and equitable and as appropriate to effectuate the provisions of section 11 and shall enter an order or decree of enforcement, the day upon which such order or decree is entered shall be the effective date of the plan.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said plan and that said plan should not be approved except pursuant to further order of the Commission:

*It is ordered*, That a hearing on Application No. 25 under the applicable provisions of said act and rules of the Commission thereunder be held on October 16, 1945 at 10:30 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as the hearing room clerk in Room 318 will at that time advise. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall notify the Commission in the manner prescribed by its Rules of Practice, Rule XVII, on or before October 15, 1945.

*It is further ordered*, That Henry C. Lank, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's Rules of Practice.

*It is further ordered*, That without limiting the scope of the issues presented in the proceedings, particular attention will be directed at the hearings to the following matters and questions:

1. Whether the plan, as submitted or as hereafter modified, is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons to be affected thereby;

2. Whether the proposed retirement of publicly held debentures and preferred stock of Railways without payment of premium is fair and equitable to the holders of such debentures and preferred stocks and, if not, what amounts the holders of the debentures and preferred stocks of Railways and Continental are fairly and equitably entitled to receive;

3. Whether the proposed payment of the debentures of Continental partly in cash and partly in new debentures having the same interest rate and maturity date, without the payment of premium, is fair and equitable to the holders of such debentures and to the stockholders of Continental, and if not what the holders of said debentures are fairly and equitably entitled to receive.

4. Whether the notes proposed to be issued and sold by Railways to banks are reasonably adapted to the security structure of Railways and other companies in its holding company system and to the earning power of Railways, and whether the terms and conditions of the issue and sale thereof are detrimental to the public interest or to the interest of investors or consumers.

5. Whether the proposed sale of the common stock of The Detroit Edison Company by Railways through the facilities of the New York Stock Exchange is appropriate and whether an exemption from the competitive bidding requirements of Rule U-50 should be granted.

6. Whether the fees and expenses to be paid in connection with the consummation of the proposed plan and all transactions incidental thereto are for necessary services and are reasonable in amount.

7. Whether the proposed transactions comply with all the requirements of the applicable provisions of the act and the rules promulgated thereunder, and whether any terms and conditions with respect to the transactions should be prescribed in the public interest or for the protection of investors or consumers.

8. Whether, in the event that the Commission shall approve such plan as filed or as modified, the Commission shall approve such plan for purposes of section 11 (d) of the act (as well as section 11 (e)) so as to permit the Commission of its own motion and irrespective of any request therefor on the part of Railways or Continental to apply to a court for the enforcement of such plan pursuant to section 11 (d).

9. Whether in the event that the Commission shall not approve such plan as filed or as modified, a plan proposed by the Commission or by any person having a bona fide interest in the reorganization should be approved by the Commission for purposes of section 11 (d) and, if proposed by the Commission, what the terms and provisions of such plan should be.

10. Generally, whether the proposed transactions are in all respects in the public interest and in the interest of investors and consumers and consistent with all applicable requirements of the Act and Rules promulgated thereunder, and if not, what modification should be required to be made therein and what terms and conditions should be imposed to satisfy the statutory standards.

*It is further ordered*, That notice of this hearing be given to Railways and Continental and to all other persons; said notice to be given to Railways, Continental and The Cleveland Trust Company by registered mail and to all other persons by general release of this Commission

which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication in the FEDERAL REGISTER.

It is further ordered, That at least 20 days prior to the date of said hearing Railways and Continental shall give additional notice thereof by mailing a copy of this notice and order to each record holder of any of their stock and to each known owner of any of their outstanding debentures, addressed to them at their respective addresses shown in the stock and registry books of said companies.

It is further ordered, That jurisdiction be and hereby is reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues or questions which may arise in these proceedings, and to take such other action as may appear necessary to the orderly and economical disposition of the issues involved.

By the Commission.

## NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of September, A. D., 1945.

Notice hereby given that a declaration and amendment thereto have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by American Power & Light Company ("American"), a subsidiary of Electric Bond and Share Company, both registered holding companies.

Notice is hereby given that any interested person may, not later than October 1, 1945 at 5:30 p. m., e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration, as filed or as amended, may become effective, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia 3, Pennsylvania.
